

INDEX OF TITLES 1972

Volume XVII, Numbers 1-5

A New Dimension in Work Study, <i>W. G. Allan</i>	Number 4, p. 19
Computerized Work Study Using the SAMMIE/AUTOMAT System, <i>M. C. Bonney and N. A. Schofield</i>	Number 3, p. 36
Decision Systems and Work Study, <i>W. G. Allan</i>	Number 1, p. 4
Equipment Justification Through MTM, <i>James J. Maher</i>	Number 3, p. 14
Estimating with a Computer, <i>Steve Bertalan</i>	Number 3, p. 26
Film Analysis Techniques for Methods and Measurement, <i>S. A. Regalbuto</i>	Number 1, p. 24
Learning Curve Prediction Development Using MTM and the Computer, <i>Homer Rivest</i>	Number 1, p. 32
Measuring Work That Cannot be Measured, <i>Stephen Laner</i>	Number 2, p. 3
Meet the MTM Family, <i>Daniel D. Clark</i>	Number 3, p. 3
MTM and Rehabilitation: A Combination for Potential Profits, <i>Jackson H. Birdsong</i>	Number 4, p. 3
MTM Data Systems Application Survey, <i>Richard Schmid</i>	Number 4, p. 9
MTM For the Construction Industry—"MTM Bygg", <i>Owe Wendelborg</i>	Number 5, p. 3
"Selling" Bank Operations MTM Standards, <i>C. George McNamara</i>	Number 5, p. 9
Standard Costing—A Management Tool for Future Profits, <i>Joe G. Hilton</i>	Number 4, p. 28
The Development of MTM-2, MTM-V and MTM-3, <i>Kjell-Eric Magnusson</i>	Number 1, p. 11
The Influence of Distance Between Dual Fixtures on Time in Performing Simultaneous Positions, <i>B. W. Niebel, S. J. Kassab and J. B. Noll</i>	Number 5, p. 16
The MTM Data System for Office Work, <i>P. M. Steele</i>	Number 2, p. 20
Translation of the Official MTM-2 and MTM-3 Data Cards into the English System, <i>Karl Eady</i>	Number 2, p. 13
Work Measurement in Punching IBM Cards, <i>Uri Halevi</i>	Number 2, p. 18
Work Measurement—The Missing Link in Modern Motivation Theory, <i>William A. Guthrie</i>	Number 5, p. 26

INDEX OF AUTHORS 1972

Volume XVII, Numbers 1-5

Allan, W. G., <i>Decision Systems and Work Study and A New Dimension in Work Study</i>	Number 1, pp. 3 and 4, Number 4, pp. 2 and 19
Bertalan, Steve, <i>Estimating with a Computer</i>	Number 3, pp. 2 and 26
Birdsong, Jackson H., <i>MTM and Rehabilitations: A Combination for Potential Profits</i>	Number 4, pp. 2 and 3
Bonney, M. C., <i>Computerized Work Study Using the SAMMIE/AUTOMAT System</i>	Number 3, pp. 3 and 36
Clark, Daniel O., <i>Meet the MTM Family</i>	Number 3, pp. 2 and 28
Eady, Karl, <i>Translation of the Official MTM-2 and MTM-3 Data Cards into the English System</i>	Number 2, pp. 2 and 13
Guthrie, William A., <i>Work Measurement—The Missing Link in Modern Motivation Theory</i>	Number 5, pp. 2 and 26
Halevi, Uri, <i>Work Measurement in Punching IBM Cards</i>	Number 2, pp. 2 and 18
Hilton, Joe G., <i>Standard Costing—A Management Tool for Future Profits</i>	Number 4, pp. 2 and 28
Kassab, S. J., <i>The Influence of Distance Between Dual Fixtures on Time in Performing Simultaneous Positions</i>	Number 5, pp. 2 and 16
Laner, Stephen, <i>Measuring Work That Cannot Be Measured</i>	Number 2, pp. 2 and 3
Magnusson, Kjell-Eric, <i>The Development of MTM-2, MTM-V and MTM-3</i>	Number 1, pp. 3 and 11
Maher, James J., <i>Equipment Justification Through MTM</i>	Number 3, pp. 2 and 14
McNamara, C. George, <i>"Selling" Bank Operations MTM Standards</i>	Number 5, pp. 2 and 9
Niebel, B. W., <i>The Influence of Distance Between Dual Fixtures on Time in Performing Simultaneous Positions</i>	Number 5, pp. 2 and 16
Noll, J. B., <i>The Influence of Distance Between Dual Fixtures on Time in Performing Simultaneous Positions</i>	Number 5, pp. 2 and 16
Regalbuto, S. A., <i>Film Analysis Techniques for Methods and Measurement</i>	Number 1, pp. 3 and 24
Rivest, Homer, <i>Learning Curve Prediction Development Using MTM and the Computer</i>	Number 1, pp. 3 and 32
Schofield, N. A., <i>Computerized Work Study Using the SAMMIE/AUTOMAT System</i>	Number 3, pp. 2 and 36
Schmid, Richard O., <i>MTM Data Systems Application Survey</i>	Number 4, pp. 2 and 9
Steele, P. M., <i>The MTM Data System for Office Work</i>	Number 2, pp. 2 and 20
Wendelborg, Owe, <i>MTM For the Construction Industry—"MTM Bygg"</i>	Number 5, pp. 2 and 3
